

**PERMISSION QUESTIONS**

**©2007**

Use these permission questions following *every* statement of intention that you make, both now and in the future, correcting any issues before proceeding.

First say, “I want to be connected to my guides of 100% Pure Light only.”

**1. “Can I? May I? Should I? ...manifest this intention?”**

*If the answer is no, find out which question and correct before proceeding.*

**2. “Is there anything blocking this intention?”** *Ask how many and clear.*

**3. Ask the following questions:**

**a) “Is there a dimension affecting the DNA that won’t allow this intention?”**

**b) “Is there a vibration affecting the foam that won’t allow this intention?”**

**c) “Is there a vibration in a dimension that is preventing this intention?”**

**d) “Is there something in NOW that won’t allow it to fluidly change back and forth?”**

**e) “Is there something preventing CAUSE?”**

*If the answer to any of these is yes, find out how many dimensions/vibrations and treat before proceeding. You don’t necessarily need to know what they are to treat them. Just say, “The first dimension affecting the DNA,” etc. and then do whatever treatment method you dowse should be used. Then re-ask the question to make sure they are treated.*

**4. “Are there any environments that don’t want this intention?”**

*If the answer is yes, find out which environments by asking:*

**a) “Are there any etheric environments that don’t want this intention?”**

**b) “Are there any physical environments that don’t want this intention?”**

**c) “Are there any other environments that don’t want this intention?”**

*If the answer to any of these is yes, find out how many of each one and treat before proceeding. You don’t necessarily need to know what the specific environment is, although you may. You can just say “The first environment,” and then do whatever treatment method you dowse should be used. Then re-ask the question to make sure they are all treated.*

Possible “Other” environments include particular energy types, such as Sangoma, Melchizadek, Viking, or Naya, as well as jarr or foam. Foam is the origin of every living thing. Jarr is the hologram of everything that is and is in every cell. You would then check each one by asking: “Are there any [Sangoma ~ Viking ~ jarr ~ foam ] environments that don’t want this intention?” Or “Is there anything in [jarr ~ foam] that doesn’t want this intention?” For the Naya, you must also ask, “Are there any Naya flows that don’t want this intention?” In treating, you can say, “The first Viking environment,” etc.

**5. “Do the NOW environments want this intention?”**

*If the answer is no, find out how many and treat each one until the answer is yes.*
